User Story: As a user, I would like to see the suggestions while inputting the destination			
Tasks	Estimate time	Owner	
Application shows the possible destination as an autocomplete list for the textbox	2 hours	Nathan	
User Stories: As a user, I would like to see the shortest path to my destination highlighted on the map			
Tasks	Estimate time	Owner	
Specify the navigation nodes and configure the database to make these nodes be able to correspond to any destination	6 hours	Yao	
Create the database for the edges between all the navigation nodes	4 hours	Zilun	
Apply the shortest path algorithm to find the route to the destination	4 hours	Yao	
Show the path on the map screen	4 hours	Gott	
User Story: As a user, I would like to have a step-by-step instructions to guide me to the destination			
Tasks	Estimate time	Owner	
Automatically generate the instruction from the path between any two navigation nodes in the route	8 hours each	Yao Zilun	
Automatically generate the instruction from the navigation node to the real destination	8 hours each	Zilun Nathan	
Design a UI for showing the instruction on the screen	4 hours	Gott	
Implement the UI and interactions for this screen	10 hours each	Gott Xiaojing	
Provide the way for the user to respond whether he/she has completed each step of the instruction or not	4 hours	Zilun	
User Story: As a user, I would like be able to re-input my location if I am away from the directions.			
Tasks	Estimate time	Owner	
Design a screen to help user to re-figure out where they are	4 hours	Gott	
Implement this helper screen and connect it to the existing QR-code scanner and the manual location input	8 hours	Xiaojing	

Design and Implement the navigation menu 3 hours each Gott, Xiaojing User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Design and implement the messaging screen 8 hours Xiaojing Show the available users inside the building 6 hours Zilun				
Tasks Estimate Time Owner Implement scrolling the map vertically and horizontally Implement zooming the map in and out. User Story: As a user, I would like to have a good user experience using an app Tasks Estimate time Owner Implement the mobile-app-like transitions between pages Design and Implement the navigation menu 3 hours each Gott, Nathan User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Besign and implement the messaging screen B hours Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Design and implement the messaging screen B hours Zilun	·	4 hours	Yao	
Implement scrolling the map vertically and horizontally Implement zooming the map in and out. User Story: As a user, I would like to have a good user experience using an app Tasks Estimate time Owner Implement the mobile-app-like transitions between pages Design and Implement the navigation menu 3 hours each Gott, Xiaojing User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Covernmently inside the building. Estimate time Owner Design and implement the messaging screen 8 hours Xiaojing Show the available users inside the building Allow the user to request help from the person				
Implement zooming the map in and out. User Story: As a user, I would like to have a good user experience using an app Tasks Estimate time Owner Implement the mobile-app-like transitions between pages Design and Implement the navigation menu 3 hours each Gott, Xiaojing User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Bestimate time Owner Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Design and implement the messaging screen 8 hours Xiaojing Show the available users inside the building Allow the user to request help from the person	Tasks	Estimate Time	Owner	
User Story: As a user, I would like to have a good user experience using an app Tasks Estimate time Owner Implement the mobile-app-like transitions between pages Design and Implement the navigation menu 3 hours each Gott, Nathan User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Design and implement the messaging screen 8 hours Xiaojing Show the available users inside the building Allow the user to request help from the person	, ,	4 hours	Nathan	
Tasks Estimate time Owner	Implement zooming the map in and out.	6 hours	Nathan	
Implement the mobile-app-like transitions between pages Design and Implement the navigation menu User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Design and implement the messaging screen Show the available users inside the building Allow the user to request help from the person	User Story: As a user, I would like to have a good user experience using an app			
Design and Implement the navigation menu 3 hours each Gott, Xiaojing User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Design and implement the messaging screen Show the available users inside the building Allow the user to request help from the person	Tasks	Estimate time	Owner	
User Story: As a user, I would like to be able to communicate with people who are currently inside the building. Tasks Estimate time Owner Design and implement the messaging screen Show the available users inside the building Allow the user to request help from the person		8 hours each	Gott, Nathan	
Tasks Estimate time Owner Design and implement the messaging screen Show the available users inside the building Allow the user to request help from the person	Design and Implement the navigation menu	3 hours each	'	
Design and implement the messaging screen 8 hours Xiaojing Show the available users inside the building 6 hours Zilun				
Show the available users inside the building 6 hours Zilun	Tasks	Estimate time	Owner	
Allow the user to request help from the person	Design and implement the messaging screen	8 hours	Xiaojing	
Allow the user to request help from the person	Show the available users inside the building	6 hours	Zilun	
inside the building	· · · · · · · · · · · · · · · · · · ·	6 hours	Yao	
Allow the user to set the status offline 2 hours Yao	Allow the user to set the status offline	2 hours	Yao
